

# Customize the Sales Icons & Clock

Bold Discounts provides you with the ability to display icons and a sales clock on your products that are placed on sale with the app.

You can use a clock to express a sense of urgency to your customers in making a purchase.

Bold Discounts also allows you to use a custom image for your sales icons.

This article provides instructions on how to customize the sales icons, clock, and add your own custom sales icon.

**Note:** The clock does not display unless your sale has an end time associated with it. Please view **Create, Edit, or Delete a Sale with Bold Discounts** for more information on how to add a start and end time to your sale.

## Use custom sales icons

**Note:** We recommend your uploaded icons are PNG images. This ensures they display correctly on all device types.

To use a custom sales icon with Bold Discounts, please follow these steps:

1. From the Shopify admin, click **Content**.
2. Click **Files**.
3. Click **Upload files**.
4. Choose your **sales icon image** and select **Open**.
5. Copy and paste the **image URL** into Notepad or a similar program.
6. From within Discounts, click **Settings**.
7. Under **Sales Icon**, click **Link custom icon**.  
**Note:** The sales icon images need to be square. This is because Bold Discounts resizes images to 60x60, so they need to be square in order to scale properly.
8. Click **Link custom icon**.
9. Paste the **image URL** from your Notepad or a similar program that was used earlier.
10. Click **Done**.
11. Optional: Click **Customize**.
12. Click the **plus** or **minus** icons to increase or decrease the icon size.
13. Click **Save**.
14. Click **Save** again.
