

# Bold Discounts Sales Icons & Clock FAQs

This guide answers several frequently asked questions about the sales icons and the sales clock feature in Bold Discounts.

---

## Can I use CSS to style the sales clock and sales icon?

Yes, the sales clock and sales icon can be styled with CSS. Please view **CSS Styling in Bold Discounts** for more information.

---

## Can I change the placement of the sales clock?

Yes. The sales clock can be changed to a different location on your product page, collection page, or home page . How this is done depends on the type of install and theme you have.

Please view the sales clock section in the **Installation Guide for Bold Discounts** for steps on changing the placement of the sales clock on the storefront.

---

## Can I change the wording on the sales clock?

Yes, the beginning text and the time settings can be configured in the app under **Settings > Sales Clock > Configure**. After making your changes, be sure to select **Save**.

---

## Can I preview the sales icons and clock?

If you have all features from Bold Discounts installed on an **unpublished** theme, you can enable a discount group within the app and view the sales icon or clock on a product while previewing the unpublished theme.

Please view the Installation Guide for Bold Discounts to see how to install Bold Discounts on a theme.

---

## Can I use a different sales icon for different discount groups?

No, only one sales icon can be used for any product that is in an active discount group.

---

## Can I use my own sales icon?

Yes, you can use your own sales icon by adding the URL source of your sales icon in Bold Discounts under **Settings > Link custom icon**.
